

“DENTAL CARE WHILE SLEEPING”

FOR CHILDREN UNABLE TO TOLERATE A ROUTINE DENTAL VISIT

When your child cannot tolerate a routine visit at your dentist’s office you may receive a referral to **Children 1st Dental & Surgery Center**. Our “Team” of pediatric dentists, anesthesiologists, RN’s and supporting professionals are dedicated exclusively to providing general dental services to children **ages 1-8**, under deep sedation or general anesthesia.

Let us highlight why our “Team” is **DFW’s 1st choice** for Children’s Dentistry under General Anesthesia.

- **One Doctor Medicates and Monitors Your Child’s Sleep**
- **One Dentist Provides Treatment**
- **Treatment Occurs in a State Certified Facility or ASC**
- **Our ASC’s Are Equipped With the Latest Instrumentation & Equipment**
- **Treatment is Completed in Just One Visit**
- **Our Highly Trained Staff Promote Compassionate Care & Patient Education**
- **Many Insurances Including Medicaid & CHIP Accepted**

FREQUENTLY ASKED QUESTIONS

Q: Why does my child need a referral prior to scheduling treatment?

A: A patient must be evaluated by a dentist or physician to determine if the patient is a good candidate for dentistry under general anesthesia.

Q: Why do I need a consultation?

A: A consultation is required to advise how best to prepare the patient for treatment and what can be expected.

Q: Why would a child need general anesthesia just to have their teeth fixed?

A: General anesthesia is usually recommended when necessary dental work cannot be performed in a comfortable safe manner in a dental office.

Q: What kind of training do the doctors have?

A: Our doctors are specially trained in the safe administration of pediatric dental care under general anesthesia.

Q: How long does it take?

A: The total length of time varies with each child. This depends on the amount of dental treatment needed and the time it takes your child to recover.

Q: Why can’t my child eat or drink before surgery?

A: For your child’s safety general anesthesia can only be administered on an empty stomach. This is extremely important. Any violation of our eating or drinking standards will cause the cancellation of your child’s treatment.

Q: Where do I go for dental care after my child’s treatment is completed at Children 1st Dental & Surgery Center?

A: The patient is referred back to the referring dentist for a 6-month recall appointment. Your primary dentist will continue providing dental treatment when there is no longer a need for general anesthesia.

If you have any further questions, please call us at **(855) 422-0224** or visit our website at **www.children1stdental.com**. We would love to hear from you.
